

Like many of you I sat around the table discussing and solving Payson's political issues, I refer to this as "table talk".

When the town passed an ordinance to increase taxes by using the emergency clause, it stirred me and I felt the need to act, to step up and make a difference. That's why I decided to run for the town council.

I believe in the power of community and the importance of each voice being heard. Remember, your vote matters! My Name is Charlie Bell and I need your vote to be your voice. Paid for by Charlie Bell for Payson Town Council

You like me have come to realize It's a big club out there and many of us are not in it. When the town passed the ordinance for the emergency clause it stirred me to action. I got tired of table politics and decided to run for town council. I'd like to recite the beginning of a poem that I learned in school. On the 18th of April in 75 there's hardly a man now alive who remembers that famous day and year of the Midnight ride of Paul Revere. I'm running with Otto, Howard, Pfister, and Ferris for change to bring the town out from the shadows and once again into the light to focus on Payson's traditions and culture. Let's fix what we have. Let's build upon Payson's strengths, Rumsey Park, The event center, and Green Valley Lake. Let's make public safety and infrastructure a priority and bring back the community pool. This is the 21st century and you need to let the people know that change is coming from people who hear your voice and believe in your vote. My name is Charlie Bell and I'm running for town council, and I need your vote to be your voice.
