

Payson is a pass-through town that is the heart of AZ: What happened and how did the Town become so neglected over the years. Steve Otto, Charlie Bell, Craig Howard, Guy Pfister, and Jim Ferris have come to realize it's a big club, and we're not in it. We are being called many things and one thing is that we are not the slate. We are running to clean the slate and bring the town out of the shadows and into the light by focusing on controlled growth ensuring that the values and traditions are continued like that of Rumsey Park, The Event Center, and Green Valley Park. Payson's strengths lie in its people. We want to empower the residents to actively participate in shaping the town's future by holding open forums where you the residents can express your opinions, ask questions, and propose solutions and not rely on a select few namely the current town council. We want to educate residents about local governance, policies, and decision-making processes. My name is Charlie Bell and I'm running to be your voice, your choice, and I need your vote.
